CARE

HAIR MOMENTS

from 88 euros

I offer you an intensely relaxing moment through a unique haircare experience that combines deep care, hydration, and regeneration. These rituals are specially designed to restore strength and vitality to fine, fragile, or damaged hair.

The luxurious texture of these exclusive therapeutic masks, made with natural ingredients, envelops your hair and provides an immediate feeling of comfort and well-being. Your hair will appear visibly thicker, denser, and more voluminous, from roots to ends, maintaining its volume sustainably.

SCALP MOMENTS

from 48 euros

I provide a collection of ultra-personalized services crafted from a prestigious selection of treatments, perfectly tailored to your scalp. These unique rituals include exfoliating and regulating lotions, soothing dermal masks, as well as fortifying and stimulating serums.

These solutions harness biological active ingredients and innovative formulations, aiming to regulate sebum production, gently exfoliate the scalp's skin, stimulate microcirculation, revitalize hair follicles, and promote hair growth.
